

The IMI Cornelius Juice Dispensing Buyers' Guide

A Complete Family of Solutions

Two-Flavor Models

Four-Flavor Models

Six-Flavor Models

IMI Cornelius Juice Dispensers represent the most reliable and productive equipment on the market. They dispense from the complete spectrum of concentrate packaging options, ranging from closed container disposable cartridge type to the popular bag-in-box. They provide a total solution for your juice dispensing needs.

IMI Cornelius Juice Dispensers offer a wide variety of features that make them the

machines of choice for the leading food service segments. Their high-capacity refrigeration systems coupled with innovative mixing valves provide unsurpassed drink quality both in temperature and pour, pitcher after pitcher glass after glass.

They combine state-of-the-art merchandising with modular components that promote serviceability. IMI Cornelius continues to raise the bar for juice dispensing equipment.
